

Infotech Solutions Web Services

Empowering Your Organization with Innovative Web Services and Consulting!

PT Infotech Solutions has an extensive and successful history with respect to internet software applications, internet marketing and website development.

If you're like many of our successful clients your business needs a website that is a powerful asset. With the correct planning, top quality work and service to match, you can finally have the business tool you've always wanted your website to be - an incredibly powerful marketing asset that enables your business to take advantage of the ever growing power of the internet.

Custom Web Applications

Running a business can be time consuming. You work hard, and custom web applications can help you work smart. We can help you define areas of your business that could be more

efficient using a custom application of your own, and then work with you to make that custom application exactly what you need it to be.

- Customer Relationship Management
- Scheduling Systems
- Subscriber Management systems

Websites

We create stunning web sites that really work to promote your company, out of thin air (or at least pixels). It's not magic - just the know-how of our expert team of web designers. The emphasis

at our firm isn't just creating nice-looking web sites, but rather creating sites that work seamlessly with your brand image to promote your business.

- Custom-tailored websites
- Existing website redesign
- Complete solutions

Ecommerce

To sell online, you need someone on your team that knows the online marketplace. We can help you launch your virtual storefront so that it promotes your

business while keeping customers safe. We'll design a robust, hassle-free online store solutions that will make your customers eager to click add to cart and checkout!

- E-commerce solutions
- Safe and secure online shopping
- Amazing storefront designs

SEO/Marketing

We understand the value of online marketing. What good is a website anyway if no one can find it? We can ensure that steady traffic flows to your website. We even work hard to ensure high conversion rates and a good return on your investment. Just like you found us, we help your customers find you!

- Search engine optimization (SEO)
- Online advertising
- Viral and social media marketing
